SR 520 Portage Bay Bridge and Roanoke Lid Project

SR 520 Portage Bay Bridge and Roanoke Lid Project

Noise Monitoring Weekly Report Summary for **Monday, November 10, 2025** to **Sunday, November 16, 2025**

PUBLISHED November 19, 2025

Monitoring times: Weekdays, 10 p.m. to 7 a.m.; weekends, 10 p.m. to 9 a.m.

How to use this report: This document summarizes the weekly nighttime noise data for the Portage Bay Bridge Project. In it, you'll find:

- Page 1 - Summary of noise levels recorded above the limits allowed under the Major Public Project Construction Noise Variance, for this week and throughout the project. This includes non-project-related noise exceedances
- Page 2 - Map of the project limits and locations of the eleven stationary monitor locations
- Pages 3 – 9 - Night-by-night noise recordings for each of the project noise monitors, along with a description of the work that night, comments received from the public regarding Project noise, and explanations for any noise limit exceedances and actions taken in response
- Page 10 - Log of public comments regarding nighttime noise issues and resolutions for the week

WSDOT is sharing this information as per the terms of the Major Public Project Construction Noise Variance (Permit **#6903010**).

MPPCNV start date: **February 5, 2025**

MPPCNV days to date: **285**

Impact work days to date: **0**

WEEKLY TOTALS

Nights worked this week (under the MPPCNV)	3
Project related non-compliance this week	0
Nighttime noise issue comments to the project	0
Non-project-related noise exceedances this week	39

PROJECT TOTALS TO DATE

Total Nights Worked (under the MPPCNV)	125
Total Project related non-compliance	2
Total noise issue comments to the project	3
Total non-project related exceedances	2155
Total TNV permits to date	9

The map displays the University of Washington campus and surrounding areas. Key features include:

- Water Bodies:** Portage Bay, Lake Washington, and Montlake Cut.
- Major Roads:** Ship Canal Bridge, Boyer Ave E, Highway 520, and various local streets like E Louisa St, E Miller St, and E North St.
- Landmarks:** University of Washington, Broken Island, and Evergreen Pt F.
- Noise Observation Points (NOI):**
 - NOI_06: Located near Eastlake Ave E and Franklin Ave E.
 - NOI_01, NOI_02, NOI_03: Located near Boyer Ave E and E Hamlin St.
 - NOI_04: Located near Boyer Ave E and E Miller St.
 - NOI_05: Located near Boyer Ave E and E Miller St.
 - NOI_08: Located near Boyer Ave E and E Miller St.
 - NOI_09, NOI_07: Located near Highway 520 and E Louisa St.
 - NOI_10 Decommissioned: Located near Highway 520 and E North St.
 - NOI_10A: Located near Highway 520 and E North St.
 - NOI_11: Located near Highway 520 and E North St.

The map displays the University of Washington campus and surrounding areas. Key features include:

*Hourly-Average Leq (dBA)												
Notes recorded by the on-site Independent Noise Monitor												
Work: No work during MPPCNV hours Public Comments: None. Exceedances: Site(s): All exceedances are not project related. Exceedances are caused by public traffic driving by the noise monitors Non-Compliance: None.												

Leq = Leq means the equivalent sound level, which is the constant sound level in a given time period.

N/A = Time Period not applicable to MPPCNV

Red = Noise Level Exceedance, project related

Blue = Noise level exceedance, not project related

Yellow = Noise Level Exceedance, covered by TNV

~ = No Data Available

= No contract work . Portable monitors are not being used (not needed).
