

## SR 520 Bridge Replacement and HOV Program

SR 520 Portage Bay Bridge and Roanoke Lid Project

### SR 520 Portage Bay Bridge and Roanoke Lid Project

Noise Monitoring Weekly Report Summary for

Monday, February 2, 2026

to

Sunday, February 8, 2026

PUBLISHED February 11, 2026

Monitoring times: Weekdays, 10 p.m. to 7 a.m.; weekends, 10 p.m. to 9 a.m.

**How to use this report:** This document summarizes the weekly nighttime noise data for the Portage Bay Bridge Project. In it, you'll find:

- Page 1 - Summary of noise levels recorded above the limits allowed under the Major Public Project Construction Noise Variance, for this week and throughout the project. This includes non-project-related noise exceedances
- Page 2 - Map of the project limits and locations of the eleven stationary monitor locations
- Pages 3 – 9 - Night-by-night noise recordings for each of the project noise monitors, along with a description of the work that night, comments received from the public regarding Project noise, and explanations for any noise limit exceedances and actions taken in response
- Page 10 - Log of public comments regarding nighttime noise issues and resolutions for the week

WSDOT is sharing this information as per the terms of the Major Public Project Construction Noise Variance (Permit #6903010).

MPPCNV start date: **February 5, 2025**

MPPCNV days to date: **369**

Impact work days to date: **0**

#### WEEKLY TOTALS

Nights worked this week (under the MPPCNV)	<b>4</b>
Project related non-compliance this week	<b>0</b>
Nighttime noise issue comments to the project	<b>0</b>
Non-project-related noise exceedances this week	<b>67</b>

#### PROJECT TOTALS TO DATE

Total Nights Worked (under the MPPCNV)	<b>172</b>
Total Project related non-compliance	<b>2</b>
Total noise issue comments to the project	<b>13</b>
Total non-project related exceedances	<b>2778</b>
Total TNV permits to date	<b>10</b>

\*Hourly-Average Leq (dBA)

Notes recorded by the on-site Independent Noise Monitor

Work:

Skanska was providing traffic control  
Transcon was installing conduit  
PSI was on site

Public Comments:

No public comments at this time.

Exceedances:

Site(s): All exceedances are not project related. Exceedances are caused by public traffic driving by the noise monitors

Non-Compliance:

None.

Leq = Leq means the equivalent sound level, which is the constant sound level in a given time period.

N/A = Time Period not applicable to MPPCNV

Red = Noise Level Exceedance, project related

Blue = Noise level exceedance, not project related

Yellow = Noise Level Exceedance, covered by TNV

~ = No Data Available

# = No contract work . Portable monitors are not being used (not needed).

\*Hourly-Average Leq (dBA)

**Notes recorded by the on-site Independent Noise Monitor**

**Work:**

No work during MPPCNV hours

**Public Comments:**

None.

**Exceedances:**

Site(s): All exceedances are not project related. Exceedances are caused by public traffic driving by the noise monitors

**Non-Compliance:**

None.

Leq = Leq means the equivalent sound level, which is the constant sound level in a given time period.

N/A = Time Period not applicable to MPPCNV

Red = Noise Level Exceedance, project related

Blue = Noise level exceedance, not project related

Yellow = Noise Level Exceedance, covered by TNV

~ = No Data Available

# = No contract work . Portable monitors are not being used (not needed).
