

SR 520 Portage Bay Bridge and Roanoke Lid Project

Noise Monitoring Weekly Report Summary for **Monday, March 16, 2026** to **Sunday, March 22, 2026**

PUBLISHED March 25, 2026

Monitoring times: Weekdays, 10 p.m. to 7 a.m.; weekends, 10 p.m. to 9 a.m.

How to use this report: This document summarizes the weekly nighttime noise data for the Portage Bay Bridge Project. In it, you'll find:

- Page 1 - Summary of noise levels recorded above the limits allowed under the Major Public Project Construction Noise Variance, for this week and throughout the project. This includes non-project-related noise exceedances
- Page 2 - Map of the project limits and locations of the eleven stationary monitor locations
- Pages 3 – 9 - Night-by-night noise recordings for each of the project noise monitors, along with a description of the work that night, comments received from the public regarding Project noise, and explanations for any noise limit exceedances and actions taken in response
- Page 10 - Log of public comments regarding nighttime noise issues and resolutions for the week

WSDOT is sharing this information as per the terms of the Major Public Project Construction Noise Variance (Permit #6903010).

MPPCNV start date: **February 5, 2025**

MPPCNV days to date: **411**

Impact work days to date: **0**

WEEKLY TOTALS	
Nights worked this week (under the MPPCNV)	1
Project related non-compliance this week	0
Nighttime noise issue comments to the project	4
Non-project-related noise exceedances this week	75

PROJECT TOTALS TO DATE	
Total Nights Worked (under the MPPCNV)	184
Total Project related non-compliance	2
Total noise issue comments to the project	17
Total non-project related exceedances	2920
Total TNV permits to date	10

CONSTRUCTION AREA AND NOISE MEASUREMENT LOCATIONS

Noise Monitoring Locations: the map below shows the locations of the eleven stationary noise monitoring sites

*Hourly-Average Leq (dBA)

Notes recorded by the on-site Independent Noise Monitor

Work:
Skanska was providing traffic control.
Transcon was inspecting utilities and boring prep work.
PSI was providing QA.

Public Comments:
No public comments at this time.

Exceedances:
Site(s): All exceedances are not project related. Exceedances are caused by public traffic driving by the noise monitors

Non-Compliance:
None.

Leq = Leq means the equivalent sound level, which is the constant sound level in a given time period.

N/A = Time Period not applicable to MPPCNV

Red = Noise Level Exceedance, project related

Blue = Noise level exceedance, not project related

Yellow = Noise Level Exceedance, covered by TNV

~ = No Data Available

= No contract work . Portable monitors are not being used (not needed).

*Hourly-Average Leq (dBA)												
Notes recorded by the on-site Independent Noise Monitor												
<p>Work: No work during MPPCCNV hours.</p> <p>Public Comments: No public comments at this time.</p> <p>Exceedances: Site(s): All exceedances are not project related. Exceedances are caused by public traffic driving by the noise monitors</p> <p>Non-Compliance: None.</p>												

Leq = Leq means the equivalent sound level, which is the constant sound level in a given time period.

N/A = Time Period not applicable to MPPCCNV

Red = Noise Level Exceedance, project related

Blue = Noise level exceedance, not project related

Yellow = Noise Level Exceedance, covered by TNV

~ = No Data Available

= No contract work . Portable monitors are not being used (not needed).
