

# SR 520 BRIDGE REPLACEMENT AND HOV PROGRAM

## Navigation changes on Lake Washington along SR 520

**UPDATE:** Both navigation channels open to boaters

**A** West navigation channel

Height shown in graphic is average. Due to seasonal lake level changes, the west navigation channel height fluctuates between 42 feet and 49 feet

**B** Floating bridge

— Permanent navigation buoys      ■ Navigation channel

**C** East navigation channel

Due to seasonal lake level changes, the east navigation channel height fluctuates between 65 feet and 70 feet
