

SR 520 Montlake Project

Noise Monitoring Weekly Report Summary forMonday, September 14, 2020toSunday, September 20, 2020PUBLISHED SEPTEMBER 23, 2020

Monitoring times: Weekdays, 10 p.m. to 7 a.m.; weekends, 10 p.m. to 9 a.m.

How to use this report: This document summarizes the weekly nighttime noise data for the SR 520 Montlake Project. In it, you'll find:

- Page 1 Summary of noise levels recorded above the limits allowed under the Major Public Project Construction Noise Variance, for this week and throughout the project. This includes non-project-related noise exceedances
- Page 2 Map of the project limits and locations of the seven stationary monitor locations
- Pages 3 9 Night-by-night noise recordings for each of the project noise monitors, along with a description of the work that night, comments received from the public regarding Project noise, and explanations for any noise limit exceedances and actions taken in response
- Page 10 Log of public comments regarding nighttime noise issues and resolutions for the week

WSDOT is sharing this information as per the terms of the Major Public Project Construction Noise Variance (Permit #3030792).

MPPCNV start date:Friday, August 16, 2019MPPCNV days to date:402

WEEKLY TOTALS	
Nights worked this week (under the MPPCNV)	2
Project related non-compliance this week	0
Nighttime noise issue comments to the project	0
Non-project-related noise exceedances this week	15

PROJECT TOTALS TO DATE	
Total Nights Worked (under the MPPCNV)	104
Total Project related non-compliance	42
Total noise issue comments to the project	41
Total non-project related exceedances	1585

Noise Monitoring Locations: the map below shows the work limits of the SR 520 Montlake Project and the locations of the seven stationary noise monitoring sites

*Hou	rly-Average Leq	(dBA)										
Notes recorded by the on-site	Independe	ent Noise Mo	onitor									
Work:												
The Design-Builder worked between 10:	00pm and 7:00	am to do bridge	deck repair on th	e SR520 floating	bridge.							
Public Comments:												
No public comments received related to	nighttime nois	ie.										
Exceedances:												
Site 4 are not project related. Exceedances are caused by public traffic driving by the noise monitors.												
Non-Compliance:												
None.												

Legend

Leq = Leq means the equivalent sound level, which is the constant sound level in a given time period.

N/A = Time Period not applicable to MPPCNV

Red = Noise Level Exceedance, project related

Blue = Noise level exceedance, not project related

~ = No Data Available
